How do I delete my personal data?

FAQ · https://behca.com/support/how-do-i-delete-my-personal-data/

The sensitive health and medication data stored in the BEHCA platform needs to be carefully protected for legal compliance. Therefore, we do not offer an automated way for users to permanently delete data without verification. If you would like to cancel your account and delete all of your personal data from the BEHCA platform, just send us a support request to support@behca.com. We will permanently delete all personal data within 24-48 hours of your request.
