Does the app work on my desktop, tablet, or phone?

FAQ · https://behca.com/support/does-the-app-work-on-my-desktop-tablet-or-phone/

Yes! BEHCA is a responsive web-based app, which means it works on anything from a desktop computer to a mobile device. We also have iOS and Android apps which offer an optimized experience for mobile devices, but lack the customization features of the website. With a BEHCA account, you can access the app on any device you choose.
